## 1: Re-Verification Application Login

Selection process:-

- Please click the link below to login

URL: <http://mpmsu.intelliexams.com/MPMSUEXAMS/frmIntelliHomePage.aspx>

The screenshot displays a web interface with several service options. On the left, there is a text block describing the Examination Management System and its distributed authoring system. In the center, there is a section for Examination Centres. On the right, there is a vertical menu of service options: e-Governance, Result, Verify Certificate, Author REGISTRATION, and STUDENT LOGIN. A black arrow points to the STUDENT LOGIN option.

Examination Management System has a simple easy to use web-based centralized user interface system that is used for storing, retrieving, managing and aggregating examination objects. The system is robust able to handle large amount of data with proper back up disaster recovery. It has a comprehensive test engine with randomization of questions and answer choices as well as role-based security allowing multiple levels of permissions for authors and administrators.

This process encompasses the management of the complete life cycle of online/offline examinations assists the institute through:

**Distributed Authoring System**

Online Hall ticket printing

Secured online question paper delivery

Authors by using the link provided below.

The QBANK Authoring Management System manages the question bank for every programme offered by the university, keeping track of questions published in the question paper. Once approved, authors can upload any number of questions for any course. At any point time, registered authors can generate summary reports and view chart of the QBANK authored by them.

**Examination Centres**

The system is composed of the central Network Operating Centre (NOC) at the university campus and Examination Data centres (EDC) at the affiliated colleges or DODE Centres at geographically dispersed locations. NOC at the university connects to the EDCs and is responsible for providing the managed services for conducting online, offline and mock examinations. The operations performed at EDCs include, the receipt of applications from students including payment of fee, attendance upload, the internal marks upload and printing of hall tickets for the students. The major part of the operations at the exam centre includes the receipt of question papers from the university just before the examination, printing the question paper and conducting examination.

## 2: Student Have to be enter his/her Enrollment No and Password

**Madhya Pradesh Medical Science  
University, Jabalpur(M.P.)**

The Examination Management System (EMS) has a simple and easy to use web-based centralized user interface and a well-defined database-centric schema for storing, retrieving, managing and aggregating examination objects. The system has a powerful but easy to use question bank authoring system with different question types like multiple choices, true or false, fill in the blanks, etc. The question banks are managed online and the questions can contain multimedia contents also. The question papers are delivered in a highly secured manner with 128-bit encryption technology. Effective reports are generated to know the details about examinations conducted, examination centre details, fee details, candidate details, cost and budget details, etc. The system is robust enough to handle large amount of data. Also the system is equipped with proper back up disaster recovery plan.
